

FIRE DEPARTMENT INFO #2

Help Us Help You!

What will we do with additional revenue? Our goal is to be able to have a full-time Chief who can be available during our peak call times. One who will be positioned better to actively recruit new volunteers and work closely with them to help those recruits to be comfortable in their new roles as first responders. We currently compensate our volunteer firefighters with a stipend of \$3.00 per call. Our goal is to increase stipends to a more competitive level.

Another goal is to upgrade outdated and unsafe equipment including air packs, turnout gear and vehicles. And yet another goal is to update the station with necessary plumbing, electrical and eventually cosmetic changes. As stated earlier, this is not going to happen overnight. This is not a sprint to some imaginary finish line, it is a long haul to address old issues and ensure our Fire Department is positioned to fill our needs for a reasonable cost.
